

animate! tv

Budget Guide 2006

animate! tv 2006 is offering production funding from £5,000 up to a maximum of £20,000, including fee.

We do not require a full budget as a part of your original submission. However you must include an estimated budget total (to the nearest £1,000) in the Proposal Form and you will find the following notes useful in calculating this.

If you are shortlisted we will ask you to send us a full budget based on the schedules outlined below. We will not be able to present your proposal to the final selection advisory team without your detailed costing for the project.

If you are requested to supply this full budget, it will need to demonstrate that the project can be realised for the money requested. Please give as much detail as possible – the items included under the schedules below are not necessarily comprehensive.

notes

Identify personnel, labs, facilities, etc where known. If you intend to engage contributors/performers, or incorporate copyright material, indicate the extent and cost of clearances. Some estimates are acceptable.

You can include a payment for your own production work (animation, editing, etc), and an artist's fee of up to 20% of production costs. If you propose to make your work under the umbrella of a production company you may need to pay a part of this fee to the company, as their production company fee.

All completed projects must be mastered on DigiBeta in 16:9 widescreen full-height anamorphic format. We will advise commissioned projects on, and include budget costs for, full DigiBeta, BetaSP and VHS delivery requirements to Channel 4, LUX, Finetake and the National Film & Television Archive, including a DigiBeta 16:9 letterbox version (with black top & bottom of screen).

If your project has received any offers of financial support or help in kind, this assistance should be specified in the budget.

Please do not include general contingency, or VAT if you are VAT-registered.

NB. **animate!**'s Line Producer will revise the budgets of commissioned projects, and will give advice on rights clearance and other matters relating to the production and potential transmission & exhibition of the work.

budget schedules

animate! is produced by Finetake and funded by Arts Council England and Channel 4 Television to stimulate, support and screen experimental practice in animation.

animate! is Arts Council England's longest-running broadcaster-linked initiative, and is maintained through the most consistent commitment ever made by Channel 4, or indeed any broadcaster world-wide, to sustaining innovation in film, video & digital work.

animate! tv has commissioned 78 projects since 1990, selected from an annual UK-wide call for submissions, and has acquired an international reputation for supporting innovation, experimentation and diversity in animation. The commissions are broadcast by Channel 4 and have gained critical and popular success at international festivals and achieved television sales around the world.

You can browse stills and synopses of these works at www.animateonline.org.
